## SECTION I: SUMMARY AND MISSION STATEMENT

Beth Israel Deaconess Medical Center (BIDMC) is a member of Beth Israel Lahey Health (BILH). The BILH network of affiliates is an integrated health care system committed to expanding access to extraordinary patient care across Eastern Massachusetts and advancing the science and practice of medicine through groundbreaking research and education. The BILH system is comprised of academic and teaching hospitals, a premier orthopedics hospital, primary care and specialty care providers, ambulatory surgery centers, urgent care centers, community hospitals, homecare services, outpatient behavioral health centers, and addiction treatment programs. BILH's community of clinicians, caregivers and staff includes approximately 4,000 physicians and 35,000 employees.

At the heart of BILH is the belief that everyone deserves high-quality, affordable health care. This belief is what drives BILH to work with community partners across the region to promote health, expand access, and deliver the best care in the communities BILH serves. Beth Israel Deaconess Medical Center's Community Benefits staff are committed to working collaboratively with its communities to address the leading health issues and create a healthy future for individuals, families and communities.

While BIDMC oversees local Community Benefits programming and community engagement efforts, Community Benefits is under the purview of the BILH Chief Diversity, Equity and Inclusion Officer. This structure makes sure that Community Benefits efforts, prioritization, planning and strategy align and/or are integrated with local hospital and system strategic and regulatory priorities and efforts to ensure health equity in fulfilling BILH's mission – *We create healthier communities – one person at a time – through seamless care and ground-breaking science, driven by excellence, innovation and equity* and values, encompassed by the acronym **WE CARE**:

- *Wellbeing - We provide a health-focused workplace and support a healthy work-life balance*
- *Empathy - We do our best to understand others' feelings, needs and perspectives*
- *Collaboration - We work together to achieve extraordinary results*
- *Accountability - We hold ourselves and each other to behaviors necessary to achieve our collective goals*
- *Respect - We value diversity and treat all members of our community with dignity and inclusiveness*
- *Equity - Everyone has the opportunity to attain their full potential in our workplace and through the care we provide.*

The mission of Beth Israel Deaconess Medical Center (BIDMC) is to serve our patients compassionately and effectively, and to create a healthy future for them and their families. This mission is supported by BIDMC's commitment to personalized, excellent care for patients; a workforce committed to individual accountability, mutual respect, and

collaboration; and a commitment to maintaining our financial health. The Medical Center is also committed to being active in the community as well. Service to the community is at the core and an important part of our mission. BIDMC has a covenant to care for the underserved and to work to change disparities in access to care; to be successful, BIDMC needs to learn from those it serves.

More broadly, BIDMC's Community Benefits mission is fulfilled by:

- **Involving BIDMC's staff**, including its leadership and dozens of community partners in the Community Health Needs Assessment (CHNA) process as well as in the development, implementation, and oversight of the hospital's three-year Implementation Strategy (IS);
- **Engaging and learning from residents** throughout BIDMC's Community Benefits Service Area (CBSA) in all aspects of the Community Benefits process, with special attention focused on engaging diverse perspectives, from those, patients and non-patients alike, who are often left out of similar assessment, planning and program implementation processes;
- **Assessing unmet community need** by collecting primary and secondary data (both quantitative and qualitative) to understand unmet health-related needs and identify communities and population segments disproportionately impacted by health issues and other social, economic and systemic factors;
- **Implementing community health programs and services** in BIDMC's CBSA that address the underlying social determinants of health, barriers to accessing care, as well as promote equity to improve the health status of those who are often disadvantaged, face disparities in health-related outcomes, experience poverty, and have been historically underserved;
- **Promoting health equity** by addressing social and institutional inequities, racism, and bigotry and ensuring that all patients are welcomed and received with respect and have access to culturally responsiveness care; and
- **Facilitating collaboration and partnership within and across sectors** (e.g., state/local public health agencies, health care providers, social service organizations, businesses, academic institutions, community health collaboratives, and other community health organizations) to advocate for, support, and implement effective health policies, community programs, and services.

The following annual report provides specific details on how BIDMC is honoring its commitment and includes information on BIDMC's CBSA, community health priorities, priority cohorts, community partners, and detailed descriptions of its Community Benefits programs and their impact.

### **Priority Cohorts**

Beth Israel Deaconess Medical Center's CBSA includes the Boston neighborhoods of Allston/Brighton, Bowdoin/Geneva, Chinatown, Fenway/Kenmore, Mission Hill and Roxbury, the City of Chelsea, and the towns of Brookline, Burlington, Lexington, Needham, Newton (Chestnut Hill) and Peabody. In FY 2022, BIDMC conducted a comprehensive and inclusive Community Health Needs Assessment (CHNA) that included extensive data collection activities, substantial efforts to engage BIDMC's partners and community residents, and thoughtful prioritization, planning, and reporting processes. These activities were in full compliance with the Commonwealth's updated Community Benefits Guidelines for FY 2019. While BIDMC is committed to improving the health status and well-being of those living throughout its entire CBSA, per the Commonwealth's updated community benefits guidelines, BIDMC's FY 2023 - 2025 Implementation Strategy (IS) is focusing its Community Benefits resources on improving the health status of those who face health disparities, experience poverty, or who have been historically underserved living in its CBSA.

Based upon BIDMC's FY 2022 CHNA, the community characteristics that were thought to have the greatest impact on health status and access to care in its CBSA were issues related to age, race/ethnicity, language, gender identity, immigration status, household composition, and economic security. There was consensus among interviewees, focus groups, and community listening session participants that people of color, recent immigrants, and non-English speakers were more likely to have poor health status and face systemic challenges accessing needed services than white, English speakers who were born in the United States. These segments of the population are impacted by language and cultural barriers that limit access to appropriate services, pose health literacy challenges, exacerbate isolation, and may lead to discrimination and disparities in access and health outcomes.

For its FY 2023 – 2025 IS, BIDMC will work with its community partners, with a focus on Chelsea and the Boston neighborhoods of Allston/Brighton, Bowdoin/Geneva, Chinatown, Fenway/Kenmore, Mission Hill and Roxbury, to develop and/or continue programming to improve well-being and create a healthy future for all individuals and families. In recognition of the health disparities that exist for certain segments of the population, BIDMC's Community Benefits investments and resources will focus on the improving the health status of the following priority cohorts:

- Youth
- Low-Resourced Populations
- Older Adults
- Racially, Ethnically and Linguistically Diverse Populations
- LGBTQIA+; and
- Families Affected by Violence and/or Incarceration.

### **Basis for Selection**

Community health needs assessments; public health data available from government (public school districts, Massachusetts Department of Public Health, federal agencies) and private

resources (foundations, advocacy groups); engagement with BIDMC's Community Benefits Advisory Committee (CBAC); and BIDMC's areas of expertise.

### **Key Accomplishments for Reporting Year**

The accomplishments and activities highlighted in this report are based upon priorities identified and programs contained in BIDMC's FY 2022 Community Health Needs Assessment (CHNA) and FY 2023-2025 Implementation Strategy (IS).

Program accomplishments include:

- Continued to support increased capacity of primary care and OB/GYN practices at five affiliated health centers
- Continued community-based specialty care services
- Provided culturally and linguistically appropriate care for patients through cancer navigation, interpreter services, and multilingual patient education
- Addressed social health determinants, particularly violence prevention, through the Center for Violence Prevention and Recovery (CVPR), Bowdoin Street Health Center's (BSHC) Neighborhood Trauma Team and other initiatives.
- Increased access to behavioral health services through the implementation of the Collaborative Care model
- Continued workforce development through summer internships for underserved youth, pipeline programs, and training programs for adults
- Address food insecurity through BSHC's purchase and distribution of fresh fruits and vegetables to patients and community members
- Continued to fund seven organizations to address housing affordability, six organizations to address jobs and financial security, and seven organizations to address behavioral health through BIDMC's Community-based Health Initiative
- Funded seven neighborhood-specific collectives in Boston and Chelsea through the Healthy Neighborhoods Initiative
- Conducted research that supports the understanding of health disparities

### **Plans for Next Reporting Year**

In FY 2022, BIDMC conducted a comprehensive and inclusive CHNA that included extensive data collection activities, substantial efforts to engage BIDMC's partners and community residents, and thoughtful prioritization, planning, and reporting processes. These activities were in full compliance with the Commonwealth's updated Community Benefits Guidelines for FY 2019. In response to the FY 2022 CHNA, BIDMC will focus its FY 2023 - 2025 IS on four priority areas. These priority areas collectively address the broad range of health and social issues facing residents living in BIDMC's CBSA who face the greatest health disparities. These four priority areas are:

- Equitable Access to Care
- Social Determinants of Health
- Mental Health and Substance Use
- Complex and Chronic Conditions.

These priority areas are aligned with the statewide health priorities identified by the Executive Office of Health and Human Services (EOHHS) in 2017 (i.e., Chronic Disease, Housing Stability/Homelessness, Mental Illness and Mental Health, and Substance Use Disorders). BIDMC's priorities are also aligned with the priorities identified by the Massachusetts Department of Public Health (DPH) to guide the Community-based Health Initiative (CHI) investments funded by the Determination of Need (DoN) process, which underscore the importance of investing in the Social Determinants of Health (i.e., built environment, social environment, housing, violence, education, and employment).

The FY 2022 CHNA provided new guidance and invaluable insights on quantitative trends and community perceptions being used to inform and refine BIDMC's efforts. In completing the FY 2022 CHNA and FY 2023 - 2025 IS, BIDMC, along with its other health, public health, social service, and community partners, is committed to promoting health, enhancing access and delivering the best care to all who live and/or work in its CBSA, regardless of race, ethnicity, language spoken, national origin, religion, gender identity, sexual orientation, disability status, immigration status, or age. As discussed above, based on the FY 2022 CHNA's quantitative and qualitative findings, including discussions with a broad range of community participants, there was agreement that for BIDMC's FY 2023 - 2025 IS, it should work with its community partners to develop and/or continue programming to improve well-being and create a healthy future for all individuals and families. In recognition of the health disparities that exist for certain segments of the population, BIDMC's Community Benefits investments and resources will continue to focus on improving the health status, addressing disparities in health outcomes, and promoting health equity for its priority cohorts, which include youth; low-resourced populations; older adults; racially, ethnically and diverse populations; LGBTQIA+; and families affected by violence and/or incarceration.

BIDMC partners with clinical and social service providers, community-based organizations, public health officials, elected/appointed officials, hospital leadership and other key collaborators throughout its CBSA to execute its FY 2023 – 2025 IS.

- **Equitable Access to Care**

- BIDMC will work with the Bowdoin Street Health Center to support its Community Health Worker program
- BIDMC will continue to partner with CCA health centers to increase access to primary care and specialty care services, including OB/GYN and maternal child health services
- BIDMC will work to provide and promote career support services and career mobility programs in partnership with Conexión, The Partnership, Inc., and other organizations
- BIDMC's Center for Diversity, Equity, and Inclusion will support research aimed at providing more equitable care for patients and community members by working with organizations including the Student National Medical Association and Harvard Medical School

- **Social Determinants of Health**
  - BIDMC will work with grantees such as Bridge Over Troubled Waters and Asian Community Development Corporation to invest in housing programs that stabilize or create access to affordable housing
  - BIDMC will partner with grantees such as Community Servings and Sociedad Latina to strengthen the local workforce and address unemployment and underemployment
  - BIDMC will promote thriving neighborhoods and enhance community cohesion and resilience through partnerships with Healthy Neighborhoods Initiative Collectives and organizations including the Louis D. Brown Peace Institute and the Boston Public Health Commission
  - BIDMC will work to increase mentorship, leadership, training, and employment opportunities for youth and young adults through partnerships with organizations such as Action for Boston Community Development (ABCD), the Boston Private Industry Council, and the YMCA of Greater Boston
  - BIDMC's Center for Violence Prevention and Recovery partners with Jane Doe, Inc., The Network/La RED, Casa Myrna, and other organizations to Build community awareness, advocate for policy change, and provide supportive care for victims of violence and trauma
  - BIDMC will promote healthy eating and active living through partnerships with community-based organizations like Fair Foods and Jose Mateo Ballet Theatre, among other organizations
- **Mental Health and Substance Use**
  - BIDMC will work with grantees such as Boston Chinatown Neighborhood Center and Fathers' Uplift to invest in community behavioral health services
  - BIDMC will implement evidence-based programs such as the Collaborative Care Model in partnership with the CCA health centers
- **Complex and Chronic Conditions**
  - BIDMC will provide preventive health information, services, and support for those at risk for complex and/or chronic conditions and support evidence-based chronic disease treatment and self-management programs through programs in partnership with the CCA health centers, Dana Farber Cancer Institute, the Joslin Diabetes Center, and other organizations and institutions

### **Hospital Self-Assessment Form**

Working with its Community Benefits Leadership Team and its Community Benefits Advisory Committee (CBAC), the BIDMC Community Benefits staff completed the Hospital Self-Assessment Form (Section VII, page 56). The BIDMC Community Benefits staff also shared the Community Representative Feedback Form with its CBAC members who participated in BIDMC's CHNA and asked them to submit the form to the Office of the AGO.

## SECTION II: COMMUNITY BENEFITS PROCESS

### **Community Benefits Leadership/Team**

BIDMC's Board of Trustees along with its clinical and administrative staff is committed to improving the health and well-being of residents throughout its CBSA and beyond. World-class clinical expertise, education and research along with an underlying commitment to health equity are the primary tenets of its mission. BIDMC's Community Benefits Department, under the direct oversight of BIDMC's Board of Trustees, is dedicated to collaborating with community partners and residents and will continue to do so in order to meet its Community Benefits obligations. Hospital senior leadership is actively engaged in the development and implementation of the BIDMC's Implementation Strategy, ensuring that hospital policies and resources are allocated to support planned activities.

It is not only the BIDMC's Board of Trustee members and senior leadership who are held accountable for fulfilling BIDMC's Community Benefits mission. Among BIDMC's core values are the recognition that the most successful Community Benefits programs are implemented organization wide and integrated into the very fabric of the hospital's culture, policies, and procedures. A commitment to Community Benefits is a focus and value manifested throughout BILH and BIDMC's structure and reflected in how care is provided at the hospital and in affiliated practices.

While BIDMC oversees local Community Benefits programming and community engagement efforts, Community Benefits is under the purview of the BILH Chief Diversity, Equity and Inclusion Officer. This structure makes sure that Community Benefits efforts, prioritization, planning, and strategy focus on equity and align and are integrated with local and system strategic and regulatory priorities to ensure health equity in fulfilling BILH's mission – *We create healthier communities – one person at a time – through seamless care and ground-breaking science, driven by excellence, innovation and equity* and values, encompassed by the acronym WE CARE:

- *Wellbeing - We provide a health-focused workplace and support a healthy work-life balance*
- *Empathy - We do our best to understand others' feelings, needs and perspectives*
- *Collaboration - We work together to achieve extraordinary results*
- *Accountability - We hold ourselves and each other to behaviors necessary to achieve our collective goals*
- *Respect - We value diversity and treat all members of our community with dignity and inclusiveness*
- *Equity - Everyone has the opportunity to attain their full potential in our workplace and through the care we provide.*

The BIDMC Community Benefits program is spearheaded by a team of Community Benefits senior leaders including the Vice President and Director of Community Benefits. The Vice

President of Community Benefits has direct access and is accountable to the BIDMC President and also reports directly to the BILH Chief Diversity, Equity and Inclusion Officer. It is the responsibility of these leaders to ensure that Community Benefits is addressed by the entire organization and that the needs of cohorts who have been historically underserved are considered every day in discussions on resource allocation, policies, and program development.

This structure and methodology are employed to ensure that Community Benefits is not the purview of one office alone and to maximize efforts across the organization to fulfill the mission and goals of BILH and BIDMC's Community Benefits program.

### **Community Benefits Advisory Committee (CBAC)**

The BIDMC Community Benefits Advisory Committee (CBAC) works in collaboration with BIDMC's hospital leadership, including the hospital's governing board and senior management to support BIDMC's Community Benefits mission to serve its patients compassionately and effectively, and to create a healthy future for them, their families, and BIDMC's community. The CBAC provides input into the development and implementation of BIDMC's Community Benefits programs in furtherance of BIDMC's Community Benefits mission. The membership of BIDMC's CBAC aspires to be representative of the constituencies and priority cohorts served by BIDMC's programmatic endeavors, including those from diverse racial and ethnic backgrounds, age, gender, sexual orientation and gender identity, as well as those from corporate and non-profit community organizations.

The BIDMC CBAC met on the following dates:

December 6, 2022

March 28, 2023

June 27, 2023

September 19, 2023

### **Community Partners**

BIDMC recognizes its role as a tertiary/academic resource in a larger health system and knows that to be successful it needs to collaborate with its community partners and those it serves. BIDMC's Community Health Needs Assessment (CHNA) and the associated Implementation Strategy (IS) were completed in close collaboration with BIDMC's staff, community residents, community-based organizations, clinical and social service providers, public health officials, elected/appointed officials, hospital leadership and other key collaborators from throughout its CBSA. BIDMC's Community Benefits program exemplifies the spirit of collaboration that is such a vital part of BIDMC's mission.

BIDMC currently supports numerous educational, outreach, community health improvement, and health system strengthening initiatives within its CBSA. In this work, BIDMC collaborates with many of its local community-based organizations, public health departments, municipalities and clinical and social service organizations. BIDMC has a particularly strong relationship with many of the community health centers that operate in its CBSA. These health centers, part of the Community Care Alliance (CCA), are critical

components of the health care safety net in the communities they operate. In 2023, the CCA health centers provided primary care medical, dental, behavioral health, and enabling services to approximately 104,800 patients. The CCA health centers include:

- Bowdoin Street Health Center<sup>1</sup>
- Charles River Community Health
- The Dimock Center
- Fenway Health and Sidney Borum Jr. Health Center
- South Cove Community Health Center

These health centers are ideal Community Benefits partners because they are rooted in their communities and, as they are predominantly federally qualified health centers, are mandated to serve low-income, historically underserved populations. These community partners have been a vital part of BIDMC's community health strategy since 1968. Historically, BIDMC has relied heavily on its CCA partners, as well as a number of other key community health partners, to implement its Community Benefits initiatives. In this regard, BIDMC has leveraged CCA's expertise and the vital connections that these organizations have with the residents and other community-based organizations that operate in the communities they serve.

BIDMC is also an active participant in the Integrated North Suffolk Community Health Needs Assessment (iCHNA) and Boston CHNA- Community Health Improvement Plan (CHIP) Collaborative (now known as the Boston Community Health Collaborative). Joining with such grassroots community groups and residents, the Boston Public Health Commission (BPHC), Massachusetts DPH, and academic partners, BIDMC strives to create a vision for both city-wide and neighborhood-based health improvement.

See Appendix A on page 61 for a full listing of the community partners with which BIDMC collaborated on its FY 2023-2025 IS and its FY 2022 CHNA.

---

## **SECTION III: COMMUNITY HEALTH NEEDS ASSESSMENT**

---

The FY 2022 Community Health Needs Assessment (CHNA) along with the associated FY 2023-2025 Implementation Strategy was developed over a twelve-month period from September 2021 to September 2022. These community health assessment, planning, and implementation efforts fulfill the Commonwealth of Massachusetts Attorney General's Office and federal Internal Revenue Service's (IRS) requirements. More specifically, these activities fulfill the BIDMC's need to conduct a community health needs assessment, engage

---

<sup>1</sup> Bowdoin Street Health Center, a member of CCA, is owned and licensed by BIDMC and is not a federally qualified health center.

the community, identify priority health issues, inventory community assets, assess impact, and develop an Implementation Strategy. However, these activities are driven primarily by BIDMC's dedication to its mission, its covenant to cohorts who have been historically underserved, and its commitment to community health improvement.

As mentioned above, BIDMC's most recent CHNA was completed during FY 2022. FY 2023 Community Benefits programming was informed by the FY 2022 CHNA and aligns with BIDMC's FY 2023 – FY 2025 Implementation Strategy. The following is a summary description of the FY 2022 CHNA approach, methods, and key findings.

### **Approach and Methods**

The FY 2022 assessment and planning process was conducted in three phases between September 2021 and September 2022, which allowed BIDMC to:

- assess community health, defined broadly to include health status, social determinants, environmental factors and service system strengths/weaknesses;
- engage members of the community including local health departments, clinical and social service providers, community-based organizations, community residents and BIDMC's leadership/staff;
- prioritize leading health issues/population segments most at risk for poor health, based on review of quantitative and qualitative evidence;
- develop a three-year Implementation Strategy to address community health needs in collaboration with community partners, and;
- meet all federal and Commonwealth Community Benefits requirements per the Internal Revenue Service, as part of the Affordable Care Act, the Massachusetts Attorney General's Office, and the Massachusetts Department of Public Health.

BIDMC's Community Benefits program is predicated on the hospital's commitment to promoting health and well-being, addressing health disparities, and working to achieve health equity. Health equity - the attainment of the highest level of health for all people - requires focused and ongoing efforts to address inequities and socioeconomic barriers to accessing care, as well as the current and historical discrimination and injustices that underlie existing disparities. Throughout the CHNA process, efforts were made to understand the needs of the communities that BIDMC serves, especially the population segments that are often disadvantaged, face disparities in health-related outcomes, and who have been historically underserved. BIDMC's understanding of these communities' needs is derived from collecting a wide range of quantitative data to identify disparities and clarify the needs of specific communities and comparing it against data collected at the regional, Commonwealth and national levels wherever possible to support analysis and the prioritization process, as well as employing a variety of strategies to ensure community members were informed, consulted, involved, and empowered throughout the assessment process.

Between October 2021 and February 2022, BIDMC, in collaboration with three other regional assessment efforts, conducted 85 one-on-one interviews with key collaborators in the community, facilitated 22 focus groups with segments of the population facing the

greatest health-related disparities, administered a community health survey involving more than 1,400 residents from BID Needham's and LHMC's CBSAs, including 346 residents from Needham, 155 residents of Burlington, and 180 residents of Peabody. BID Needham and LHMC shared this information with BIDMC and organized two community listening sessions. The Boston Public Health Commission fielded a COVID-19 Health Equity Survey in December 2020/January 2021; as such, BIDMC, based on recommendations from the Boston CHNA-CHIP Collaborative Steering Committee, opted not to field the BILH Community Health Survey in Boston. This survey of a random sample of over 1,650 residents in multiple languages examined issues related to job loss, food insecurity, access to services, mental health, vaccination, and perceptions of risk around COVID-19. The North Suffolk Public Health Collaborative also fielded a community health survey. The survey collected data from 1,401 respondents from Chelsea, Revere, and Winthrop. Results were stratified by community, age group, gender, race, ethnicity, and language.

The articulation of each specific community's needs (done in partnership between BIDMC and community partners) is used to inform BIDMC's decision-making about priorities for its Community Benefits efforts. BIDMC works in concert with community residents and leaders to design specific actions to be collaboratively undertaken each year. Each component of the plan is developed and eventually woven into the annual goals and agenda for the BIDMC's Implementation Strategy adopted by the BIDMC's Board of Trustees.

## **Summary of FY 2022 CHNA Key Health-Related Findings**

### **Equitable Access to Care**

- Individuals identified a number of barriers to accessing and navigating the health care system. Many of these barriers were at the system level, meaning that the issues stem from the way in which the system does or does not function. System level issues included providers not accepting new patients, long wait lists, and an inherently complicated healthcare system that is difficult for many to navigate.
- There were also individual level barriers to access and navigation. Individuals may be uninsured or underinsured, which may lead them to forego or delay care. Individuals may also experience language or cultural barriers - research shows that these barriers contribute to health disparities, mistrust between providers and patients, ineffective communication, and issues of patient safety.

### **Social Determinants of Health**

- The social determinants of health are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks. These conditions influence and define quality of life for many segments of the population in the CBSA. Research shows that sustained success in community health improvement and addressing health disparities relies on addressing the social determinants of health that lead to poor health outcomes and drive health inequities. The assessment gathered a range of

- information related to economic insecurity, education, food insecurity, access to care/navigation issues, and other important social factors.
- There is limited quantitative data in the area of social determinants of health. Despite this, information gathered through interviews, focus groups, survey, and listening sessions suggested that these issues have the greatest impact on health status and access to care in the region - especially issues related to housing, food security/nutrition, and economic stability.

### **Mental Health and Substance Use**

- Anxiety, chronic stress, depression, and social isolation were leading community health concerns. The assessment identified specific concerns about the impact of mental health issues for youth and young adults, the mental health impacts of racism, discrimination, and trauma, and social isolation among older adults. These difficulties were exacerbated by COVID-19.
- In addition to the overall burden and prevalence of mental health issues, residents identified a need for more providers and treatment options, especially inpatient and outpatient treatment, child psychiatrists, peer support groups, and mental health services.
- Substance use continued to have a major impact on the CBSA; the opioid epidemic continued to be an area of focus and concern, and there was recognition of the links and impacts on other community health priorities, including mental health, housing, and homelessness. Individuals engaged in the assessment identified stigma as a barrier to treatment and reported a need for programs that address common co-occurring issues (e.g., mental health issues, homelessness).

### **Complex and Chronic Conditions**

- Chronic conditions such as cancer, diabetes, chronic lower respiratory disease, stroke, and cardiovascular disease contribute to 56% of all mortality in the Commonwealth and over 53% of all health care expenditures (\$30.9 billion a year). Perhaps most significantly, chronic diseases are largely preventable despite their high prevalence and dramatic impact on individuals and society.

For more detailed information, see the full FY 2022 BIDMC Community Health Needs Assessment and Implementation Plan Report on the hospital's website.

## SECTION IV: COMMUNITY BENEFITS PROGRAMS

|                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                      | <p>Community Health Centers (CHC) are in a unique position to provide accessible, culturally sensitive, linguistically appropriate primary care and specialty care services, including outreach, preventive, and enabling services to diverse medically underserved communities. The health centers that BIDMC supports are rooted in their communities, understand the unique social, cultural, and health-related needs of those they serve, and are better equipped than any organization to meet these needs. A number of BIDMC specialties (e.g., OB/GYN, Infectious Disease, etc.) and ancillary services (e.g., radiology, lab) are provided on-site at the health centers.</p> <p>The CHCs also have access to teaching and growth opportunities including the Linde Family Fellowship Program (LFFP). The LFFP provides early and midcareer physician leaders with an opportunity to develop expertise and skills in primary care leadership, including practice management and innovation.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                                                                       | <p>BIDMC was instrumental in helping its affiliated and/or licensed health centers form a network called the Community Care Alliance (CCA). By collaborating on clinical and administrative issues, the CCA helps its members continue to provide high-quality, cost-effective healthcare services by collectively contracting for services and funding, as well as sharing resources and expertise for the benefit of their patients and communities. BIDMC is committed to strengthening the capacity of its five affiliated CHCs in the CBSA: Bowdoin Street Health Center (BSHC), The Dimock Center, Fenway Health and Sidney Borum Jr. Health Center, Charles River Community Health (CRCH), and South Cove Community Health Center. The partnership takes many forms: recruitment, retention, financial support and credentialing of physicians and mid-level providers, BIDMC admitting privileges and access to managed care contracts, Harvard Medical School appointments and teaching opportunities, BIDMC-sponsored educational programs, and access to Up-to-Date.</p> <p>BIDMC's Mystery Shopping process ensures that ambulatory sites are adhering to quality standards related to patient safety and satisfaction. By engaging a team of "mystery shoppers" to monitor incoming patient calls, BIDMC provides prompt feedback to health center staff in order to improve responsiveness and the ability to provide efficient, patient-focused assistance at every interaction.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                    | <p>As patients move between community-based and hospital-based care (ambulatory specialty care, Emergency Department (ED) or inpatient hospitalization), it is imperative that providers in both settings have accurate, real-time clinical information. BIDMC has harnessed technology to ensure this communication through Health Information Exchange (HIE) enhancements. BIDMC also remains an important part of the Commonwealth's state healthcare information exchange (Mass HIWay). BIDMC provides ongoing reference lab services to The Dimock Center and South Cove Community Health Center, with results being delivered directly to each site's electronic health record (EHR) via an electronic interface.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                                                                                                         | <p>BIDMC utilizes BILH retail and specialty pharmacies to offer a Patient Assistance Program for patients with family income at or below 300% of the federal poverty level. The pharmacies are registered as Health Safety Net (HSN) pharmacies and provide courtesy fills for low-income BIDMC patients to ensure those without insurance leave with their medication. To support patients in accessing medications through the HSN pharmacy program, BIDMC contracts with the BILH pharmacies to employ patient assistance staff.</p> <p>BIDMC also subsidizes inpatient psychiatric services for those most in need by providing compassionate and evidence-based treatment to patients who present as a threat to themselves or others, or who are unable to care for themselves due to mental illness. Additionally, throughout BIDMC's Community Benefits Service Area, BIDMC subsidizes primary care services provided by BIDMC's Affiliated Physicians Group and Healthcare Associates (HCA).</p> <p>BIDMC's robust Financial Assistance Program offers emergency and other medically necessary services at low or no cost to qualified patients (when family income is at or below 400% of the current Federal Poverty Level). BIDMC Financial Counseling staff screen patients and assist patients in applying for all eligible financial assistance programs.</p> |                                                                       |

| <b>Brief Description or Objective</b>                                                                                                    | <p>A BIDMC infectious disease consultant is contracted with The Dimock Center to provide screening, care, and education regarding Human Immunodeficiency Virus (HIV)/Hepatitis C Virus (HCV) co-infection on-site at The Dimock Center every week. The care and service include a special focus on access to care, initiation, and completion of state-of-the-art HCV therapy. Making these services available at The Dimock Center reduces access barriers for patients who are particularly vulnerable and who otherwise might not receive the latest regimen or be able to access or complete treatment. This program also has a BIDMC infectious disease liaison from The Dimock Center to the BIDMC Liver Center for full engagement and advocacy for vulnerable patients to promote successful treatment outcomes.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                        | <p>The Wellness Center at Bowdoin Street Health Center (BSHC) contains a demonstration kitchen, a large exercise room for dance and physical activity classes, and a gym with work-out equipment. The Wellness Center offers Bowdoin/Geneva residents the opportunity to learn and practice healthy habits in their own neighborhood. The Healthy in the City program offered by BSHC is a team-based approach to weight management that actively involves a provider, nutritionist, and case manager in ongoing care planning for each participant. The intervention includes referrals to physical activities, connection to nutrition resources, and referral to mental health counseling when appropriate.</p> <p>To address food insecurity, BSHC partners with local organizations to increase access to healthy foods. Fair Foods is a community-based organization that works with other non-profits, community groups and religious organizations to distribute fruits and vegetables to Boston-area residents. BSHC has partnered with the Boston Public Health Commission to distribute Farmers Market coupons that can be used at any City of Boston Farmers Market during summer and fall. Information about additional food-related resources such as food distribution sites and EBT and SNAP is also made available in multiple languages.</p> |                                                                                            |

| Each year, BSHC will provide case management for youth ages 5 - 18 to address issues related to childhood obesity.           | In FY23, youth met virtually and participated in facilitated group discussions with topics ranging from healthy snacking to how to use a grow kit. 43 patients were enrolled in the Healthy in the City case management program. 192 patients and community members were reached through after school programs, basketball clinics, school vacation activities, and summer camps.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, BSHC will distribute farmer's market coupons for individuals to use at City of Boston Farmers Markets.            | BPHC provided 609 booklets of \$50 coupons that could be used at any City of Boston Farmers Market during the summer and fall. BSHC distributed all of the coupons between October 2022 and September 2023.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 1<br><u>Goal Type:</u> Process Goal |
| Each year, BSHC will distribute healthy food to Boston-area residents.                                                       | In FY23, BSHC purchased 1,590 bags through Fair Foods and distributed them free to patients and community members. BSHC CHWs also distributed 563 grocery store vouchers to patients.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |

| <b>Brief Description or Objective</b>                                                                                                                                                 | Public safety is of concern within BIDMC's local neighborhoods, including the Bowdoin/Geneva area. BIDMC's police and public safety presence contributes to a sense of well-being. The medical center has an excellent cooperative working relationship with the Boston Police Department (BPD) and provides support in the Longwood Medical Area and to Bowdoin Street Health Center (BSHC). BIDMC's officers are deputized by the Suffolk County Sheriff's Department and granted special police powers by the Massachusetts State Police. |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                | <p>BIDMC is actively engaged in creating a vibrant, sustainable community that fosters healthy lifestyles, enhances quality of life, and improves environmental conditions. BIDMC collaborates with grass-roots level partners and city and state government to address environmental determinants that impact health status. As part of BIDMC's commitment to enhancing the physical environment, BIDMC maintains bus stops, Joslin Park, and other green spaces near its campus.</p> <p>Within the hospital, BIDMC is implementing an Environmental Strategic Plan, spearheaded by BIDMC's multi-departmental Sustainability Committee. BIDMC's operational practices will have a direct impact on its communities and BIDMC will always have the responsibility to evaluate business practices to ensure that "we do no harm" for the future of our patients and our staff. BIDMC is committed to conserving natural resources, reducing its carbon footprint, fostering a culture of sustainability, enhancing health equity, and advancing cost-saving opportunities.</p> <p>BIDMC pledges to continually improve environmental performance by balancing economic viability with environmental responsibility.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                                                                                                                          | <p>Through its Center for Violence Prevention and Recovery (CVPR), BIDMC leads the way in developing a continuum of education, outreach, and treatment interventions to respond to victims of interpersonal, sexual, community violence, and homicide bereavement. It is also a leader in developing programming to address secondary traumatic stress among domestic violence and medical service providers. In response to sexual, domestic, and/or interpersonal violence, CVPR provides individual and group support and counseling (inpatient and outpatient), trauma-informed policies and programs, and advocacy. For those patients with severe safety concerns following interpersonal assault, BIDMC provides Safebeds, a place for a survivor to remain in the hospital overnight. CVPR's community violence initiatives include neighborhood-based support groups, individual counseling, outreach, training, and advocacy. CVPR's human trafficking intervention program will provide training to medical professionals and offer identification and acute intervention for patients entering the medical system.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                                                               | Bowdoin Street Health Center (BSHC) is the lead agency for the Bowdoin Geneva Greater Four Corners Neighborhood Trauma Team (NTT). As the lead healthcare agency, BSHC partners with Greater Four Corners Action Coalition (GFCAC) and provides outreach to individuals, families, and neighborhoods impacted by community violence. The NTT functions as a hub team comprised of a licensed clinical social worker, a Family Partner/Community Health Worker, other staff members throughout the health center, and community organizers from GFCAC. The NTT assesses trauma-related community needs to support and deliver prevention, response, and short- and long-term recovery services. These services are intended to support existing neighborhood strategies and all services are free and private to residents impacted by community violence. |                                                                                            |

| Each year, Workforce Development will continue to encourage community referrals and hires.                                                | In FY23, 225 job seekers were referred to BILH and 70 were hired across BILH hospitals.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Each year, Workforce Development will continue to hire young people from the community for summer jobs, returning to an in-person format. | In FY23, Workforce Development hired 26 high school aged young people referred by our community partners for paid summer jobs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Each year, Workforce Development will attend events and give presentations about employment opportunities to community partners.          | In FY23, 67 events and presentations were conducted with community partners across the BILH service area.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, Workforce Development will offer internships in BILH hospitals to community members over the age of 18.                        | In FY23, 54 community members placed in internships across BILH hospitals to learn valuable skills. BIDMC participated in offering these internships.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |

|                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                         |                                                                                            |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Each year, Workforce Development will hire interns after internships and place in BILH hospitals                                                                                                                                                                               | In FY23, 22 interns were hired permanently in BILH hospitals. BIDMC participated in these hirings.                                                                                                                                                                                                                      | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Each year, Workforce Development will offer English for Speakers of Other Languages (ESOL) classes to BILH employees.                                                                                                                                                          | In FY23, 45 employees across BILH were enrolled in ESOL classes. BIDMC employees participated in these classes.                                                                                                                                                                                                         | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, Workforce Development will offer citizenship, career development workshops, and financial literacy classes to BILH employees.                                                                                                                                       | In FY23, 20 BILH employees attended citizenship classes, 135 BILH employees attended career development workshops and 189 BILH employees attended financial literacy classes. BIDMC employees participated in these offerings.                                                                                          | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, Workforce Development will offer paid trainings for community members across BILH.                                                                                                                                                                                  | In FY23, BILH trained a total of 89 community members to Patient Care Technician or Nursing Assistant (30), Pharmacy Tech (16), Perioperative LPN (3), Medical Assistant (21), Behavioral Health roles (4) or into the Associate Degree Nursing Residency program (15). BIDMC participated in offering these trainings. | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, BIDMC will host at least 20 students in the Summer Health Corps program which provides teenagers with education about healthcare careers through service, career panels, mentoring and tours. 25% of participants will be from the Community Benefits Service Area. | BIDMC hosted 26 high school students in summer 2023. At the time of the program, 65% of these students resided in the CBSA. The students participated in service assignments, career panels, and tours, gaining experience and exposure to a variety of healthcare careers.                                             | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |

|                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                            |                                                   |                                                   |                                                      |                                                    |                                                                                     |

| <b>Brief Description or Objective</b>                                                                                                                  | <p>BIDMC, through its Community-based Health Initiative (CHI), is investing in local organizations to reduce homelessness, reduce displacement, and increase home ownership by low-income individuals and families. To date, BIDMC has awarded funds to seven organizations for a three-year grant period which began January 2021. The funded organizations are:</p> <ul style="list-style-type: none"> <li>• <u>Asian Community Development Corporation (ACDC)</u>: Working with the Chinese Progressive Association (CPA) to help low-income immigrants in Chinatown achieve housing stability and reduce displacement</li> <li>• <u>BAGLY</u>: Launching Host Homes (HH) program to support unstably-housed and homeless LGBTQ+ youth between the ages of 18-24</li> <li>• <u>Bridge Over Troubled Waters</u>: Expanding outreach efforts to homeless youth and young adults (YYA) to provide housing interventions to those reached</li> <li>• <u>City Life/Vida Urbana</u>: Working to stabilize low-income families by halting a wave of current and expected no-fault evictions caused by rapid development through its Anti-Displacement Zones for Health: Roxbury program</li> <li>• <u>Fenway Community Development Corporation (FCDC)</u>: Changing city and state housing policy to stop displacement through coalition-based tenant and resident organizing</li> <li>• <u>Metro Housing Boston</u>: Conducting a rigorous study to determine if modifying the rent calculation in the Housing Choice Voucher Moving to Work program will have an impact on reducing cliff effects for working families</li> <li>• <u>Opportunity Communities</u>: Piloting a home ownership program to benefit households harmed by housing discrimination</li> </ul> <p>BIDMC also awarded funding to the Upstream Fund of the Innovative Stable Housing Initiative (ISHI). The Upstream Fund invests in organizing and coalition building efforts that are geared towards advancing policy and systems change, within and across four areas of focus: anti-displacement; tenant protections; community control of land; and asset building.</p> |                                                                                            |                                                   |                                                   |                                                      |                                                    |                                                                                     |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Over the grant period, CHI grantees will make progress toward improving mental health and substance use outcomes for residents who live, work, and play in Boston. | CHI grantees are implementing their programs and collecting data to measure progress against this goal. As of the end of FY23, the behavioral health grantees had reached 748 participants, hired 62 staff, and trained 339 staff/volunteers.                                                         | <u>Program Year:</u> Year 3<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Over the grant period, CHI grantees will report an improvement in mental health symptoms for a majority of participants.                                           | Six behavioral health grantees served 383 participants included in the evaluation sample and achieved improvement in mental health symptoms for a majority of participants. There was also a statistically significant decrease in the proportion of participants with moderate to severe depression. | <u>Program Year:</u> Year 3<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Over the grant period, CHI grantees will increase their evaluation capacity.                                                                                       | CHI grantees increased their evaluation capacity by attending 5 Evaluation Learning Collaborative sessions and participating in quarterly individual technical assistance meetings with CHI independent evaluator.                                                                                    | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |

| <b>Brief Description or Objective</b>                                                                                                          | <p>To increase access to mental health services, BIDMC has implemented the Collaborative Care model, a nationally recognized primary care–led program that specializes in providing behavioral health services in the primary care setting. The services, provided by a Beth Israel Lahey Health licensed behavioral health clinician, include counseling sessions, phone consultations with a psychiatrist, and coordination and follow-up care. The behavioral health clinician works closely with the primary care provider in an integrative team approach to treat a variety of medical and mental health conditions.</p> <p>Bowdoin Street Health Center (BSHC) also works to integrate behavioral health services into their primary care clinic through the Integrated Behavioral Health Clinician (IBHC). The IBHC provides co-located, collaborative care within the primary care clinic and serves as a consultant to primary care staff to provide clinical interventions for patients that are based on brief, functional assessments rather than traditional specialty mental health assessments and interventions. BIDMC’s Social Work department provides support groups to individuals to help establish a community of support. The hospital provides over 10 different support groups to provide a network for individuals experiencing medical difficulties ranging from cancer to pregnancy loss to COVID-19 survivors.</p> |                                                                                            |

| <b>Brief Description or Objective</b>                                                                                                                                                    | <p>Screening, Brief Intervention, and Referral to Treatment (SBIRT) is an evidence-based approach to the delivery of early intervention and treatment services for youth and people with substance use disorders and those at risk of developing substance use disorders. SBIRT screening quickly assesses severity of substance use and helps providers identify appropriate treatments. SBIRT is recommended by the Institute of Medicine. Patients are asked about alcohol use, and those with an identified issue are provided discharge instructions including contacts for alcohol use counseling.</p> <p>BIDMC also has an Opioid Care Committee that works to prevent Opioid Use Disorder and to improve the care of patients with an Opioid Use Disorder. The goals of the committee include implementing a comprehensive team approach to addiction treatment; achieving best practices for opioid use in assessment, treatment, and continuity of care for acute and chronic pain management; improving management and control systems for opioid use and misuse; and complying with Federal and State regulatory requirements regarding opioid management.</p> <p>BILH is supporting The Dimock Center's Restoring Hope Campaign through a grant that will allow for the renovation and expansion of the historic Dr. Marie E. Zakrzewska Building, a focal point of The Dimock Center's campus, to house Boston's first post-detox clinical stabilization program for men. The building will also be renovated to accommodate The Dimock Center's existing women's clinical stabilization program. Together the 16-bed men's and 16-bed women's programs will reach more than 1,000 people annually.</p> |                                                                       |

| By the end of FY23, a professional Underrepresented in Medicine (URiM) recruitment video will be made with trainees from all departments.                          | Goal is complete. Clips were collected from trainees in all departments and an Underrepresented in Medicine (URiM) recruitment video was assembled by an external vendor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | <u>Program Year:</u> Year 3<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| By the end of FY23, a data-driven approach to the recruitment of URiM faculty will be developed. We expect a 15% increase in the number of URiM faculty recruited. | Goal is in progress. BIDMC is partnering with HR leadership at Harvard Medical Faculty Physicians (HMFP) at BIDMC to monitor the key metrics around recruitment, retention, and advancement of URiM faculty. A physician has been recruited to coach chiefs on recruitment strategies and outreach, interact with potential candidates about the BIDMC experience and resources available, as well as identify social media opportunities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 1<br><u>Goal Type:</u> Process Goal |

|                                                                                                                                                                              |                                                                                                                                                                                                                                                                              |                                                                                            |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Across BILH, increase BIPOC representation among new leadership (directors and above) and clinical (physicians and nurses) hires with an aim of at least 25% representation. | Across BILH there was a 25% increase in BIPOC leadership (directors and above) and clinical (physicians and nurses) hires over FY22.                                                                                                                                         | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Each year, increase spend with diverse businesses by 25% over the previous fiscal year across the system.                                                                    | More than \$50 million was contracted to Women and Minority-owned Business Enterprises (WMBE) in FY23. This is a 22% increase over FY22.                                                                                                                                     | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Outcome Goal |
| Each year, expand system-wide DEI learning, in alignment with enterprise learning management solution.                                                                       | 8 system-wide DEI trainings were conducted for all BILH staff and hospitals.                                                                                                                                                                                                 | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |
| Each year, support creation or expansion of local DEI committees/resource groups.                                                                                            | BIDMC is forming a Diversity, Equity and Inclusion Council to guide the hospital's efforts to nurture and sustain a diverse, equitable and inclusive organizational culture – and to make meaningful and lasting change for our patients, our employees and our communities. | <u>Program Year:</u> Year 1<br><u>Of X Years:</u> Year 3<br><u>Goal Type:</u> Process Goal |

|                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                            |

| <b>Priority Health Need: Equitable Care</b><br><b>Program Name: Evidence-Based Strategies and Research</b>     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                            |
| <b>Brief Description or Objective</b>                                                                          | <p>The Institute of Medicine's report, Unequal Treatment, focused the nation's attention on disparate care and health outcomes among the U.S. populace. BIDMC's clinical and research community embraced the challenges of advancing knowledge about the root causes of racial and ethnic health disparities and developing evidence-based strategies to improve health status of affected groups.</p> <p>This research enterprise frequently extends beyond BIDMC's campus, involving collaboration with other Harvard Medical School (HMS) affiliates. The Dana Farber/Harvard Cancer Center (DF/HCC)'s Initiative to Eliminate Cancer Disparities is one example where seven institutions are working together on community education and outreach campaigns as well as efforts to make state-of-the-art cancer care accessible to communities of color through clinical trial enrollment and enhanced culturally competent care in hospitals.</p> |                                                                                            |

## SECTION VII: HOSPITAL SELF-ASSESSMENT FORM

### Hospital Self-Assessment Update Form – Years 2 and 3

Note: This form is to be completed in the two Fiscal Years following the hospital's completion of its triennial Community Health Needs Assessment

#### I. Community Benefits Process:

- Has there been any change in composition or leadership of the Community Benefits Advisory Committee in the past year? ☒ Yes ☐ No

- If so, please list updates:

BIDMC has worked to align its Community Benefits Advisory Committee (CBAC) membership to reflect the demographics included in BIDMC's Community Benefits Service Area (CBSA). BIDMC added the following members to the CBAC: Lynne Courtney (replacing Joanne Pokaski), Pamela Everhart (replacing James Morton), Jane Foley (replacing Marsha Maurer), Shantel Gooden (replacing Maia Betts), Samantha Taylor (replacing Alberte Altine-Gibson), Amy Nishman (replacing Kira Khazatsky)

**BIDMC Community Benefits Advisory Committee Members:** Flor Amaya, Director of Public Health, Department of Human Services and Public Health, City of Chelsea; Elizabeth Browne, Chief Executive Officer (CEO), Charles River Community Health; Alexandra Chéry Dorrelus, Co-Director, Louis D. Brown Peace Institute; Lynne Courtney, Program Administrator, Workforce Planning and Development, Beth Israel Lahey Health (BILH); Shondell Davis, Community Trauma Healing Specialist, Cory Johnson Center for Post-Traumatic Healing (participating as a community resident); Jane Foley, Interim Chief Nursing Officer, BIDMC; Lauren Gabovitch, Case Manager, BIDMC; Richard Giordano, Director of Policy and Community Planning, Fenway Community Development Corporation; Shantel Gooden, Senior Director of Behavioral Health Administration and Operations, The Dimock Center; Nancy Kasen, Vice President, Community Benefits and Community Relations, BILH; Barry Keppard, Public Health Director, Metropolitan Area Planning Council; Angie Liou, Executive Director, Asian Community Development Corporation; Amy Nishman, Senior Vice President of Strategy, JVS Boston; Sandy Novack, Social Worker, Patient Family Advisor; Alex Oliver-Davila, Executive Director, Sociedad Latina; Kelina (Kelly) Orlando, Executive Director, Ambulatory Operations, BIDMC; Trinie Polk, Director of Racial Equity and Community Engagement, Boston Public Health Commission; Jane Powers, Chief of Staff, Fenway Health; Richard Rouse,

Advisory Board Member and former Executive Director, Mission Hill Main Streets; Samantha Taylor, Executive Director, Bowdoin Street Health Center; Robert Torres, Director of Community Benefits, BILH; LaShonda Walker-Robinson, Community Resource Specialist, BIDMC; Fred Wang, BIDMC Trustee Advisor Emeritus

## II. Community Engagement

- Organizations Engaged in CHNA and/or Implementation Strategy
- If there have been any updates to the key partners with whom the hospital collaborates, please indicate in the table below. Please feel free to add rows as needed.

| Organization                                                                   | Name and Title of Key Contact                                                                                                                                                                                                                                                                                                                              | Organization Focus Area      | Brief Description of Engagement (including any decision-making power given to organization)                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Community Care Alliance                                                        | Dr. Charles Anderson, President and Chief Executive Officer, The Dimock Center; Samantha Taylor, Executive Director, Bowdoin Street Health Center; Elizabeth Browne, Executive Director, Charles River Community Health; Manuel Lopes, Interim Chief Executive Officer, Fenway Health; Eric Tiberi, Executive Director, South Cove Community Health Center | Community health centers     | The Community Care Alliance (CCA) is a partnership among the community health centers affiliated with BIDMC. BIDMC supports CCA-affiliated health centers through technical assistance, resource sharing, and direct financial support. CCA-affiliated community health centers assisted in expanding BIDMC's community engagement efforts in high need and historically underserved communities during the CHNA and IS process. Representatives from CCA health centers serve on the Community Benefits Advisory Committee. |
| Chelsea Community Connections (CCC) / Chelsea Healthy Neighborhoods Initiative | Cara Cogliano, Director, Chelsea Community Connections                                                                                                                                                                                                                                                                                                     | Social service organizations | BIDMC, through its Healthy Neighborhoods Initiative, funded a collective of Chelsea-based organizations to conduct robust community engagement to select a project. In FY23, CCC has been holding Women's Wellness workshops in Chelsea in both Spanish and English. They provide                                                                                                                                                                                                                                            |

|                                 |                                                                                                              |                              |                                                                                                                                                                                                                                                                                                                          |

BIDMC clinicians have also participated in several sessions.                                                                                                                                                                                                                      |
| Louis D. Brown Peace Institute  | Alexandra Chery-Dorrelus, Co-Executive Director                                                              | Social service organizations | BIDMC has had a long-standing partnership with the Louis D. Brown Peace Institute, including participation in outreach events during Homicide Awareness Month, sponsoring an annual wreath-making event, involvement in the Mother's Day Walk for Peace, hosting a staff coordinator, and co-writing grant applications. |
| Boston Public Health Commission | Triniese Polk, Director of Racial Equity and Community Engagement and Dr. Bisola Ojikutu, Executive Director | Local health department      | BIDMC engages with BPHC on a number of initiatives, including the Farmer's Market Coupon program, emergency preparedness efforts, Cancer Health Ride program, and the Boston Health Start Initiative.                                                                                                                    |

- Level of Engagement Across CHNA and Implementation Strategy

Please use the spectrum below from the Massachusetts Department of Public Health<sup>2</sup> to assess the hospital's level of engagement with the community in implementing its plan to address the significant needs documented in its CHNA, and the effectiveness of its community engagement process.

**For a full description of the community engagement spectrum, see page 11 of the Attorney General's Community Benefits Guidelines for Non-Profit Hospitals.**

<sup>2</sup> "Community Engagement Standards for Community Health Planning Guideline," Massachusetts Department of Public Health, available at: <http://www.mass.gov/eohhs/docs/dph/quality/don/guidelines-community-engagement.pdf>. For a full description of the community engagement spectrum, see page 11 of the Attorney General's Community Benefits Guidelines for Non-profit Hospitals.

### A. Implementation Strategy

Please assess the hospital's level of engagement in developing and implementing its plan to address the significant needs documented in its CHNA and the effectiveness of its community engagement process.

| Category                                                                                                       | Level of Engagement | Did Engagement Meet Hospital's Goals?                                                                                                                  | Goal(s) for Engagement in Upcoming Year(s) |
|----------------------------------------------------------------------------------------------------------------|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------|
| Overall engagement in developing and implementing filer's plan to address significant needs documented in CHNA | Collaborate         | Goal met – significant engagement took place in order to assess community needs and develop a robust IS to address them.                               | Collaborate                                |
| Determining allocation of hospital Community Benefits resources/selecting Community Benefits programs          | Collaborate         | Goal met – BIDMC collaborates with its CBAC to determine the allocation of resources for the FY 2023 – 2025 IS                                         | Consult                                    |
| Implementing Community Benefits programs                                                                       | Empower             | Goal met – BIDMC, through its close collaboration with the CBAC, empowers grantees to implement programs aligned to the FY 2023 – 2025 IS.             | Collaborate                                |
| Evaluating progress in executing Implementation Strategy                                                       | Empower             | Goal met – Multiple evaluation workshops were held to build the evaluation and data capacity of grantees.                                              | Collaborate                                |
| Updating Implementation Strategy annually                                                                      | Consult             | Goal met – BILH and BIDMC track and share data on a routine basis with the CBAC. This informs whether the Implementation Strategy needs to be updated. | Consult                                    |

- For categories where community engagement did not meet the hospital's goal(s), please provide specific examples of planned improvement for next year:

- Opportunity for Public Feedback

Did the hospital hold a meeting open to the public (either independently or in conjunction with its CBAC or a community partner) at least once in the last year to solicit community feedback on its Community Benefits programs? If so, please provide the date and location of the event. If not, please explain why not.

In FY23, BIDMC held four CBAC meetings all of which were open to the public (of which one was designated the annual meeting). These meetings were held via Zoom on December 6, 2022, March 28, 2023, June 27, 2023, and September 19, 2023 (the annual meeting). BIDMC is committed to having transparent and open CBAC meetings. In an effort to engage the community during these meetings, each CBAC meeting had a dedicated time for public comments. BIDMC also accepted written public comments up to five business days prior to a meeting. Meeting agendas were posted online seven business days prior to each meeting and all meeting materials (slides, minutes, etc.) were posted on the website within five business days after a meeting. Additionally, five newsletters were sent out to inform the community about the CHI and other Community Benefits updates.

### **III. Updates on Regional Collaboration**

1. If the hospital reported on a collaboration in its Year 1 Hospital Self-Assessment, please briefly describe any updates to that collaboration, including any progress made and/or challenges encountered in achieving the goals of the collaboration.

BIDMC Community Benefits staff continues to be involved in the Boston Community Health Collaborative (previously known as the Boston CHNA-CHIP Collaborative). BIDMC staff participate in regular meetings convened by MAPC of organizations, hospitals, health departments and others that work in the North Suffolk region. These meetings are used to share information and resources across the region related to COVID-19, the rapid influx of newly arriving migrants, and other mutual challenges. In addition to BIDMC and MAPC, organizations/agencies that regularly participate include: the Chelsea, Revere, Malden and 5 Cambridge health departments, Cambridge Health Alliance, Mass General Brigham, East Boston Neighborhood Health Center, and the MA Department of Public Health.

2. If the hospital entered a regional collaboration in the past year, please provide the information requested of regional collaborations on p. 5 in the Year 1 Hospital Self-Assessment Form.
