

Gender-Affirming Services

Whether you are contemplating hormone therapy, chest reconstruction surgery, bottom surgery, a hysterectomy or voice therapy, experts at Beth Israel Deaconess Medical Center are here to support you every step of the way.

Hormone Therapy (Endocrinology)

We counsel patients and can help you sort through the advantages and disadvantages of various hormone regimens. We provide gender-affirming hormone therapy to transgender and non-binary patients.

- **Michael Irwig, MD, FACE**
Director of Transgender Medicine at BIDMC

Dermatology

We offer clinical expertise in the dermatological care of gender-diverse and sexual minority patients, as well as HIV-centered dermatology.

- **Peter Chien, MD**

Gastroenterology

We offer clinical expertise in the gastroenterological care of gender-diverse and sexual minority patients.

- **Alexander M. Goldowsky, MD**

Obstetrics and Gynecology

All obstetricians and gynecologists at BIDMC welcome and provide care for gender-diverse patients. Additional specialists provide expert gender-affirming medical and surgical care, including hysterectomies and robotic total laparoscopic hysterectomy with partial vaginectomy, colectomy.

- **Roger Lefevre, MD**
- **Supraja Rajagopalan, MD**
- **Payal Srinivasa, MD**
- **Rebekah Vilorio, MD**
- **Chi-Fong Wang, MD**
- **Marybeth Meservy, NP**

Plastic and Reconstructive Surgery

We offer a wide range of gender-affirming procedures including top surgeries, such as breast augmentation, peri-areolar mastectomy, and double incision mastectomy/ nipple grafting, bottom surgery, such as such as vaginoplasty and phalloplasty (radial forearm, partial latissimus, abdominal and thigh based), and facial feminization surgery.

- **Ashley Boustany, MD**
- **Ryan Cauley, MD**
- **Samuel Lin, MD**
- **Adam Tobias, MD**

Primary Care

While all of our primary care providers see and treat gender-diverse patients, our team consists of experts in caring for transgender patients.

- **Joshua DuBow, MD**
- **Susan Maya, MD**
- **Andrew Silapaswan, MD**

Psychiatry

The ASPIRE Clinic offers diagnostic evaluation and treatment for individuals who are at risk for or are showing early signs or symptoms of psychosis.

- **Paulo Lizano MD**

Reconstructive Urology

We offer expert gender-affirming bottom surgery including vaginoplasty (penile inversion, zero depth, and peritoneal), metoidioplasty, orchiectomy, and phalloplasty.

- **Marissa Kent, MD**

Voice Services

We are committed to helping everyone develop a voice that is true-to-self, functional, and healthy. Our voice team offers multidisciplinary care to help patients achieve their voice and communication goals through behavioral, medical, and surgical interventions.

- **Pavan Mallur, MD**
